## ABOUT US

TTC was founded 2018 and is headquartered in Jeddah, Kingdom of Saudi Arabia. From day one, TTC has established a professional system integration for ICT and Low Current solutions within Saudi Arabia.

Working with global multi-national companies in the ICT sector, our management team has over 25 years of broad experience in executive leadership, management, strategic planning, business development, and sales. In the region's growing ICT sector, we, at TTC, have formulated a strategic direction focusing on leveraging the company's technology

Leadership to support emerging innovations we have a proven track record in the security & A/V systems and executive management area as well as in-depth knowledge of the latest intelligent integrated security systems and risk assessment.

At TTC we plan, design, implement, and manage these key ICT and low current projects. The partnerships that we built with leading manufactures of ICT and low current products and services have helped us provide the latest technologies to our customers.

# VISION & MISSION

## VISION

Our vision is to be among the top reputable providers of Low Current solution in the Kingdom of Saudi Arabia.

## MISSION

Our mission is to create and deliver innovative connectivity solutions and technologies to empower our clients to accomplish more.

## VALUE & PROPOSITION

TTC's highly skilled, trained, and motivated team customizes the products and creative solutions to the requirements of our customers. Our team allows our organization to meet and, on many occasions, to exceed the national and international standards and get full customer satisfaction.

## COMMITMENT TO QUALITY, SAFETY AND ENVIRONMENT POLIENCIES

At TTC we are constantly committed to supplying products and providing services of high quality that will earn customer satisfaction, through a friendly environment of operation and safe work. To ensure the best possible system for managing our business, we have successfully implemented an Integrated Management System into every aspect of our business. Our objective is one of continuous improvement in all aspects of the Integrated System, based on the principles of ISO9001:2018 and quality management.

# QUALITY ASSURANCE
